DETAILED ACTION

Claims 16-26 and 37-38 are pending in this application.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 27, 2002 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 16-26 remain rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. applicants' analysis of the law is not agreed with. In *Ex Parte Grasselli*, applicants sought to avoid a 35 USC 102(b) anticipation by writing a proviso which excluded the prior art species, which proviso lacked any description. By contrast, in *In re*

Art Unit: 1624

Johnson, 194 USPQ 187, 196, the fact situation was somewhat different. There, the claims were narrowed to avoid material lost in an interference. Since the fact situation here is the same as *Ex Parte Grasselli*, and different from *In re Johnson*, the former, and not the latter will be followed.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

- 1). Claim 16 is indefinite in that the metes and bounds of "a substituent" are unknown.

There is no definition for this term in the specification. There is only definition of "suitable substituent" in the specification, which differs substantially in scope with the term in the claim.

- 2). "Substituted or unsubstituted" throughout claims 16-22 is unclear as to the nature and number of substituent(s) intended.

Allowable Subject Matter

Claims 37-38 are allowable. None of the prior art of record nor a search in the pertinent art area teaches the exact species of claim 37.
